

**Education****College/University:**

Anhui University

Shanghai Institute of Biological Products

Highest degree:

M.Sc. in Pathogenic Microbiology & Molecular Biology

Major Subjects:

Cloning and expression of HIV-1 gag p24, env gp41 recombinant antigens and p24-gp41 fusion recombinant antigen in *Escherichia coli*

Projects/Research:

Functional characterization of M-type K15 of Kaposi's Sarcoma-associated herpesvirus

Scholarships:

DAAD

Scientific Interests and Goals:

Molecular biology and virology; grasp the highest standard techniques and serve people
