

**Education****College/University:**

1993-1998 Kharkov State University -Kharkov, Ukraine

2001-2003 Kadir Has University-Istanbul, Turkey

Highest degree:

MSc in Biology

Major Subjects:

Molecular Biology, Protein Interaction, Heat Shock Proteins

Projects/Research:

Search for biological functions of Hsp25 phosphorylation

Scientific Interests and Goals:

Hsps have essential cellular functions. This is the pillow that provides us with „soft landing“ once we fall unexpectedly. So I will try to learn how it works in details.

Hobbies and other interests:

Alpine skiing (Bad Grund Club), Diving (PADI), Thai-Chi; Lab mice (at home) and Street cats (“Sokak Melek”, “SED”)

Publications:
