

**Education**

2001-2006

University of Hanover, Germany

**Highest degree:**

Diploma in Biology

**Subjects:**

Cellular and Developmental Biology

Biochemistry

Immunology

**First name:**

**Natalie**

**Last name:**

**Naue**

**Date of birth:**

14.04.1982

**Country:**

**Germany**

**E-mail:**

**natalie.naue@gmx.de**

**Supervisor:**

**Dr. U. Curth**

**Biophysical Chemistry**

**Projects/Research:**

1. Membrane association and sorting of splicing variants and artificially generated mutants of intestinal lactase
2. Protein – Protein and Protein-DNA interactions at the DNA replication fork of E.coli

**Scientific Interests and Goals:**

It's interesting how proteins work, so I am fortunate that my PhD project involves comparison of protein structure and function.

**Hobbies and other interests:**

English Literature, Travel, Botany
