

First name:
Susanne

Last name:
Wolf

Date of birth:
12.02.1981

Country:
Germany

E-mail:
Wolf.Susanne@mh-
hannover.de

Supervisor:
Prof. Schlegelberger,
Cell and Molecular
Pathology

Education

College/University:

2001-2003 Johannes Gutenberg-Universität Mainz,
Pre-Diploma in Biology
2003-2004 Cardiff University, Department of Biochemistry
2004-2007 Johannes Gutenberg-Universität Mainz,
Diploma in Biology

Highest degree:

Diploma in Biology

Major Subjects:

Molecular Genetics, Physiological Chemistry, Microbiology

Projects/Research:

Synergistic effects of histone methylation defects and oncogene activation and their contribution to the induction of chromosomal instability in leukemogenesis

Scholarships:

2004: Awarded by Erasmus exchange programme
2006: Awarded by Johannes Gutenberg-Universität Mainz
for Diploma thesis

Scientific Interests and Goals:

To get a better understanding of the mechanisms underlying leukemogenesis. In particular which factors induce chromosomal instability and how does chromosomal instability lead to malign transformation.

Hobbies and other interests:

Music, Literature, Sailing, Gardening, etc.
