

**Education****College/University:**

2000-2006 Jimma University, School of Medicine, Degree of Doctor of Medicine, MD (with Hons)

Highest degree:

M.D

Major Subjects:

Medicine

Projects/Research:

1. HIV interaction with platelets: the role of CLEC- 2 and DC-SIGN receptors.

Scholarships:

1. The JU-LMU link for Medical Education, Ludwig-Maximilians University, Munich, Germany (July 2006)

Scientific Interests and Goals:

I am highly interested in the pathogenesis and spread mechanisms of infectious diseases, particularly virus-mediated ones. I would love to explore and have an in depth insight into the interface between infection and immunity. By doing this, I aspire to have a career as a physician-scientist searching for break-through findings that could set free human life out of suffer; easy cure and prevention of infectious diseases in the clinics.

Hobbies and other interests:

Reading, journalism, radio, music, surfing the net, friends...

First name:

Theodros

Last name:

Solomon Tsegaye

Date of birth:

07.02.1983

Country:

Ethiopia
