

**First name:**

**Hui Zhi**

**Last name:**

**Low**

**Date of birth:**

**09.10.1984**

**Country:**

**Singapore**

**E-mail:**

**low.huizhi@mh-  
hannover.de**

**Supervisor:**

**Prof. Dr. Torsten Witte  
Clinic for Clinical  
Immunology**

## **Education**

### **College/University:**

2003-2006 University of Applied Sciences Bonn-Rhein-Sieg,  
B.Sc. In Biology.

2006-2008 University of Applied Sciences Bonn-Rhein-Sieg,  
M.Sc in Biology with Biomedical Sciences.

### **Highest degree:**

M.Sc in Biology with Biomedical Sciences.

### **Major Subjects:**

Biomedical Sciences.

### **Projects/Research:**

Investigation into the role of ILT6 in immunomodulation and in autoimmune diseases and cancer.

### **Scholarships:**

1. Kölner Gymnasial-und-Stiftungsfonds (2007).
2. Richard Winter Stiftung (2006-2007)

### **Scientific Interests and Goals:**

I am interested in the study of immunological diseases, in which how such a highly fine tuned immune system can go awry and also the possible therapeutic options. I hope to be able to contribute new knowledge which would be of help in the treatment of these diseases, and in the process also learn new things and techniques.

### **Hobbies and other interests:**

Reading, computer games.
