

**First name:**

**Andrea**

**Last name:**

**Autengruber**

**Date of birth:**

**24.09.1984**

**Country:**

**Austria**

**E-mail:**

**Andrea.Autengruber@  
helmholtz-hzi.de**

**Supervisor:**

**Prof. Bruder  
Immune Regulation,  
HZI Braunschweig**

## **Education**

### **College/University:**

•**2003-2006** Paris Lodron University Salzburg, B.Sc. in Genetics and Molecular Biology.

•**2006-2008** Paris Lodron University Salzburg, MA.Sc in Genetics and Biotechnology.

### **Highest degree:**

MA. rer.nat.

### **Major Subjects:**

Immunology

### **Projects/Research:**

*Current project at MHH:*

„Characterization and manipulation of type II alveolar epithelial cell function in T cell mediated pulmonary inflammation“

### **Scholarships:**

FWF financial support during diploma thesis  
MD/PhD program

### **Scientific Interests and Goals:**

My main field of interest is concentrating on immunology in common. In particular, disease on the basis of immunology, ranging from cellular background and mechanism to possible clinical treatments.

### **Hobbies and other interests:**

Sports, Friends, Literature, Movies, Art, Travels, Music
