

**Education****College/University:**

2001-2006 Universidad de Los Andes. Diplom in Biology.

Highest degree:

Diplom in Biology.

Major Subjects:

Molecular Biology, Immunology.

Projects/Research:

1. Decreasing the immunogenicity of cell based therapeutics by regulating the expression of HLA class II and adhesion molecules.

First name:

Yarúa

Last name:

Jaimes Becerra

Date of birth:

12.03.1985

Country:

Venezuela

E-mail:

Jaimes.yarua@mh-hannover.de

Supervisor:

**Prof. Blasczyk
Department of
Transfusion Medicine**

Scholarships:

1. Teaching assistantship in General biology and Cell Regulation. Universidad de Los Andes, 2004- 2006.
2. PhD scholarship, Fundación Gran Mariscal de Ayacucho (FUNDAYACUCHO) and the German Academic Exchange service (DAAD), 2007.

Scientific Interests and Goals:

My current scientific interest is focus on immunogenetics areas, mainly in the development of new strategies to achieve tolerance in allogeneic transplantation.

Hobbies and other interests:

Literature, Languages, Latin American dances, Music, Movies.
