

Education

College/ University:

2004 – 2006 Faculty of Biology, Sofia University „St. Kliment Ochridski“ and Department of Medical Genetics, Medical University – Sofia, M. Sc. in Molecular Biology – Genetics

2001 – 2004 Faculty of Biology, Sofia University „St. Kliment Ochridski“, B. Sc. in Molecular Biology

2000 – 2001 Faculty of Biology, Sofia University „St. Kliment Ochridski“, Speciality „Biology and chemistry“

Highest degree:

M.Sc. in Molecular Biology – Genetics

First name:

Antoaneta

Last name:

Toncheva

Date of birth:

14.08.1981

Country:

Bulgaria

e-mail:

**antoaneta.toncheva
@yahoo.com**

Supervisor:

**Prof. Dr. Michael Kabesch
Dept. of Paediatric
Pneumology and
Neonatology**

Major Subjects:

Genetics, Molecular biology, Biochemistry

Projects/Research:

The role of genetic variants in the chromosome 17q21 locus in childhood asthma

Scientific Interests and Goals:

The main field of mine interest is Human Molecular Genetics. I want to go deeper in the area of the association studies for genetic predisposition to multifactor-based diseases. Asthma is one of them. I would be satisfied as a young scientist if i am able to improve the knowledge that will help us to understand this area of genetics better.

Hobbies and other interests:

traveling, summer holiday in the mountain, reading books, swimming, foreign languages, photography, theatre, music
