

# ZIB

ZENTRUM FÜR INFektionsBIOLOGIE

## Application Requirements

If you wish to apply for a place on our program please make sure you fulfil the following requirements:

- A life science university degree as listed below. Alternatively, a university degree in medicine or veterinary medicine. Applicants should hold, or anticipate to receive it not later than 6 months after the deadline. If you have not yet finished your course we need a provisional certificate or statement of marks by your university about your accomplishments so far.
- Candidates from countries not listed should hold a recognised university degree that enables them to enter a PhD program in their own country. The evaluation panel will decide on a case-by-case basis whether or not your degree is suitable for entering the PhD program Infection Biology.
- Excellent English skills. Preferably proven by a recognised certificate (IELTS, TOEFL, CAE, etc.). This requirement is waived for native English speakers and for students with a proven minimum of nine years of English classes.
