

**Klinik für Immunologie und Rheumatologie****ABTEILUNGSSEMINARE 2018/2019 (Tertial 3)**

Ort: Seminarraum der Klinik für Immunologie und Rheumatologie, Klin. Lehrgebäude (I1), 1. Etage

Zeit: Jeweils **freitags, 13.00** Uhr c.t.

- 03.05.19 Theresa Graalmann  
Indirect effects of immunomodulation on T cell receptors
- 10.05.19 Metodi V. Stankov, Ramachandramouli Budida, Steffi Willenberg, Jayendra K. Krishnaswamy, Georg M.N. Behrens. mTOR/TFEB mediated activation of autophago-lysosomal pathway reveals potential of mature DCs to present newly encountered antigens: implications for autoimmunity?
- 17.05.19 Theresa Graalmann  
Cell-directed targeting of tissue macrophages using liposomal nano-carriers
- 24.05.19 Lisann Jobczyk  
Antibodies against CD74 in SpA and psoriasis
- 31.05.19 entfällt - Brückentag
- 07.06.19 Alexandra Jablonka  
Chronic respiratory diseases in HIV patients
- 14.06.19 Claudia Schröder  
New gene defects in combined and common variable immunodeficiency
- 21.06.19 Gerrit Ahrenstorf  
T cell Exhaustion and vaccination response of RA patients under immunosuppression
- 28.06.19 Thais Langer Jacobus  
Alloantibody formation against NK cell antigens in patients after solid organ transplantation
- 05.07.19 Faranaz Atschekzei  
Epigenetics in PID
