

## **Education**

### **College/University:**

2002-2006 Chang Gung University, B.Sc. In Medical Biotechnology

2006-2008 National Taiwan University, M.Sc in Oral Biology.

### **Highest degree:**

M.Sc. in Oral Biology

### **Major Subjects:**

Immunology

### **First name:**

**I-Na**

### **Last name:**

**Lu**

### **Date of birth:**

**16.04.1984**

### **Country:**

**Taiwan**

### **E-mail:**

**i-na.lu  
@twincore.de**

### **Supervisor:**

**Prof. Sparwasser  
Immunology**

### **Projects/Research:**

DC-SIGN targeted antigen cross-presentation and its role in asthma pathology amelioration

### **Scholarships:**

1.Chang Gung University Presidential Award, Taiwan

### **Scientific Interests and Goals:**

My main field of research is immunology. Of particular interest is the role of populations of dendritic cells. These cells have been implicated in the maintenance of immune tolerance as well as in the generation of immune responses. It is hoped that targeting dendritic cells may be beneficial for a broad range of therapeutic approaches to inflammatory and autoimmune diseases, such as vaccine development.
