

Education

College/University:

1999-2003, B.Sc. Biological sciences, Yarmouk University, Jordan

2003-2006, M.Sc., Biotechnology/immunology, Yarmouk University, Jordan

Highest degree:

M.Sc. in Biotechnology

Major Subjects:

Molecular Immunology

Projects/Research:

Studies on the link between Alpha-1-Antitrypsin deficiency, respiratory viral infection and development of chronic obstructive pulmonary diseases.

Scientific Interests and Goals:

My research interests are focused on understanding the underlying biological roles of the alpha-antitrypsin protein (AAT) in lung physiology and pathophysiology. My hope is to add new knowledge that helps in improve the clinical of AAT augmentation therapy.

Hobbies and other interests:

Reading, Cooking.

Publications:

I-Al-Qaoud. K, Al-Omari. M, Al-Aghbar. M and S. Abdel-Hafez. 2008. Production of monoclonal antibodies Aagainst the 8 kDa Subunit of Echinococcus granulosus Antigen B (EgAgB8/2) using DNA immunization. Hybridoma (Vol. 27):431-438

First name:

Mariam

Last name:

Al-Omari

Date of birth:

11.06.1981

Country:

Jordan
