

**Education****College/University:**

2004-2007 American University of Beirut, B.Sc. In Biology

2007-2009 American Uiniversity of Beirut, M.Sc in Biology.

**Highest degree:**

M.Sc. in Biology

**Major Subjects:**

Cell and Molecular Biology/Cancer Biology

**First name:**

**Mona**

**Last name:**

**El Khatib**

**Date of birth:**

15.07.1985

**Country:**

**Lebanon**

**E-mail:**

monaalkhatib\_00@  
hotmail.com

**Supervisor:**

**Prof. Ruben Plentz**  
**Gastroenterology,**  
**Hepatology and**  
**Endocrinology**

**Projects/Research:**

Analysis and treatment of the Notch signaling pathway in hepatocellular carcinoma and cholangiocarcinoma.

**Scholarships:**

Graduate Assistantship from American University of Beirut  
(2007-2009)

**Scientific Interests and Goals:**

My main field of interest is the intracellular signal transduction pathways especially in cancerous cells. I aspire that my work on the Notch signaling pathway would contribute to our knowledge on Cancer Therapy.

**Hobbies and other interests:**

Hiking, Reading, Music, Movies, Travel etc...
